

MOISTURE METER
CATALOGUE NO.: GEC-P40116-C

Moisture Meter is used for rapid, non-destructive measurement of moisture on moving or stationary rolls, stacks, or reams of paper and paper board.

The instrument measures the moisture of a variety of materials by determining its dielectric constant, which is related to its moisture content. Eight readings are taken and the average is displayed as one moisture reading. A new average is taken every 0.5 second.

APPLICATIONS :

Paper, paperboard, nonwovens, kraft, linerboard, newsprint, sheet plastics, tissue and more.

Salient Features:

- Aluminum enclosure & Stainless steel rollers.
- Large LED display shows percent moisture.
- Completely automatic instrument setting.
- No separate electrodes or lead required.
- Immediate results.
- Rechargeable battery.

TECHNICAL – SPECIFICATION

Moisture Range :	0 to 15%
Power Supply :	1 Phase, 220 ± 10% V AC, 50 Hz
