

HAND SHEET FORMER
(SEMI -AUTOMATIC)
CATALOGUE NO.: GEC-P40303-C

Hand Sheet Former is a stainless steel device produces laboratory hand sheets to allow the test and evaluation of the physical properties of pulp. The sheets are identical to those formed by the standard sheet former. The elimination of operator influence helps assure consistency, increases output, improves the reproducibility, reduces time factor and reduces operator fatigue without detriment to the final product.

APPLICATIONS :

Pulp, Paper, Recycled Paper

APPLICABLE STANDARDS:

**TAPPI T-205, ISO 5269/M, AS/NZ 1301-2035,
CPPA C4, SCANC26**

Salient Features:

- Durable, all stainless steel construction.
- User-friendly control panel.
- Standard Sheet Former with integral Pneumatic Couching.
- Suitable for sheet formation of 165 mm dia.
- Variable times and pressures.
- Provided with laboratory blotter, sheet drying ring and sheet drying plate.
