

LABORATORY SEAL STRENGTH TESTER
CATALOGUE NO.: GEC-P40408

Laboratory Seal Strength Tester is a highly specialized quality control instrument specifically developed to evaluate the interfacial adhesion properties of flexible packaging material, coated packaging films and similar materials.

APPLICABLE STANDARDS:

TAPPI, SCAN, ISO

Salient Features:

- Stainless steel and anodized aluminum construction.
- Digital display of force applied.
- Pneumatic grippers improve testing ease and speed.
- Zero backlash ball screw with permanent lubrication.
- High level of safety – no pinch points, safety interlock equipped.
- Robust and reliable with Auto tare facility.
- Retaining peak values, automatic or normal zero setting.
- Overload and over travel protection facilities.
- Cross arm and screw drive.
- Strain gauge and load cell.
- Strain gauge can easily be removed for calibration.
- May be programmed with various other speeds.
